Publicly Accessible Shoreline: Adapting to Climate Change and Crane Beach, Massachusetts: Part 2 of a 3-part series with the Trustees of Reservations

<https://www.americaadapts.org/episodes/2020/9/14/publicly-accessible-shorelines-adapting-to-climate-change-at-crane-beach-massachusetts-part-2-of-a-3-part-series-with-the-trustees-of-reservations>

Full Episode Questions

- What are the implications for what's referred to as "fast track geology?" How can that impact the public's understanding of climate change? Is it a positive or a negative experience with regards to communicating the impacts of climate change? Defend your opinion.
- How do you balance the priorities of an entity or organization like the Trustees with the community's needs, particularly when there are financial restraints?
- Consider how the pandemic may have increased awareness of the value of nondescript resources such as beaches. How might this change adaptation plans into the future?
